

For more than 30 years, Kiwanians in Oregon and southwest Washington have provided a remarkable level of support for advanced cancer treatment and research at OHSU Doernbecher Children's Hospital. This extraordinary generosity has totaled more than \$4.5 million in contributions provided through the Kiwanis Doernbecher Children's Cancer Program. This commitment, a result of the exceptional efforts of the countless individual Kiwanians throughout the region, is making a significant impact on treatments for children with cancer and blood disorders. This report highlights the many ways your partnership is improving the health and well-being of children in our region.

Thank you.

GENEROUSLY SUPPORTING

DOERNBECHER CHILDREN'S Hospital

HOW YOUR GIVING MAKES AN IMPACT

The Kiwanis Doernbecher Children's Cancer Program is a valuable partner in advanced cancer treatment and research at OHSU Doernbecher Children's Hospital. The program furthers our patient care and research efforts by supporting the training of the next generation of children's cancer specialists.

Applying the expertise they develop through the program, these trainees will spend their careers caring for children and seeking cures for currently untreatable forms of cancer.

THE KIWANIS DOERNBECHER CHILDREN'S CANCER PROGRAM

As one of the finest pediatric hematology/oncology fellowship training programs in the nation, the Kiwanis Doernbecher Children's Cancer Program (KDCCP) has the power to change how we care for children with cancer. The Kiwanis Fellows receive intense clinical training in providing attentive and compassionate care to pediatric cancer patients. Equipped with clinical and research skills and a high degree of professionalism, they are well poised to become leaders in the field of pediatric hematology/oncology.

Caring for Children

Kiwanis Fellows oversee the hospital's oncology inpatient service. They run the hospital rounds and help direct the care for every single child with cancer admitted to Doernbecher. With more than 200 new diagnosed cancer and blood disorder patients each year from Oregon, southern Washington, Alaska and Idaho, Doernbecher is the only comprehensive pediatric cancer center in the region. The Kiwanis Fellows have a direct and meaningful impact on the lives of children with cancer.

Driving Research Discovery

As one of the top pediatric cancer programs in the nation, Doernbecher provides an excellent setting for fellows to receive specialized training experience in laboratory or clinical research. The comprehensive training program affords opportunities for fellows to work alongside renowned faculty physicians to gain valuable in-depth research experience. Without the foundation they develop here, our fellows would not be trained to conduct research that may one day lead to cures in cancer.

Your support is crucial.

Funding from government and hospital sources has decreased and the support of local Kiwanis groups has proven to be vital to the training of future pediatric cancer physicianscientists. Through your generosity we are able to train leaders with the expertise needed to carry on this important work.

Your philanthropic support also allows us to add other important options to the program, including:

- Program which trains fellows to design and run clinical trials.
- Annual trips to Dar es Salaam,
 Tanzania, where they care for
 kids at children's hospital Jengo La
 Watoto and work with hospital staff
 to develop curriculum and improve
 their pediatric oncology unit. This
 program helps fellows understand
 the global impact of cancer and how
 treatments may differ depending on
 the country's resources.
- Memberships to societies and travel to conferences, which facilitate learning about the latest research from the world's experts, as well as networking with those experts to expand their research potential.

FELLOWS MAKING A DIFFERENCE

Your support helps train fellows who go on to make significant advancements in the treatment of children with cancer and blood disorders.

STEPHEN ROBERTS, M.D.

We are excited to share that Dr. Stephen Roberts from Memorial Sloan Kettering Cancer Center in New York has joined Doernbecher as our new Pediatric Hematology/Oncology Division Head. At his previous institution, Dr. Roberts held a number of leadership roles including Chief of the Pediatric General Oncology Service and Director of the PHO

Fellowship Program, and he is an internationally recognized expert in Neuroblastoma.

Notably, Dr. Roberts graduated from Doernbecher's own Pediatric Hematology/Oncology Fellowship Program in 2004, a program funded by the Kiwanis Doernbecher Children's Cancer Program. In fact, he was the program's second-ever Fellow. We look forward to partnering with Dr. Roberts to further the mission of KDCCP and continue to bring important progress to pediatric cancer treatment.

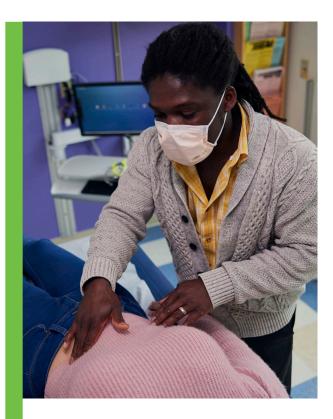

ADAM LAMBLE, M.D.

Following Dr. Lamble's graduation from the OHSU Pediatric Hematology/ Oncology Fellowship Program in 2017, he joined Seattle Children's Hospital as Assistant Professor in the Department of Pediatrics at the University of Washington School of Medicine and pediatric oncologist. Dr. Lamble's clinical and research interests focus on high-risk

hematologic malignancies and immune based therapies. He is a member of the Children's Oncology Group myeloid diseases committee and is currently leading multiple early phase clinical trials for pediatric patients with relapsed hematologic malignancies.

We are eager to see how Dr. Lamble's clinical work and research improve outcomes for pediatric cancer patients.

"When one supports the fellows, they are actually making a huge investment in the care of children with cancer. For every fellow we train, they will go on to train many more fellows who will also go on to perform important research and care for patients. Therefore, the investment in one fellow will increase exponentially with a global reach for children with cancer."

- Evan Shereck, M.D.

Director, Pediatric Hematology/Oncology Fellowship Program

KIWANIS DOERNBECHER

CHILDREN'S CANCER PROGRAM

FELLOW GRADUATES

Since the beginning of the program, there have been 40 graduates of the Kiwanis Doernbecher Children's Cancer Program. As leaders in their field, they are making a substantial impact both here in Oregon and across the country.

Name	Graduated	Current Location
Ashley Speckhart, M.D.	2003	Maine Children's Cancer Program, Scarborough, ME
Stephen Roberts, M.D.	2004	Memorial Sloan Kettering Cancer Center, New York, NY
Veronica Flood, M.D.	2005	Medical College of Wisconsin, Milwaukee, WI
Suman Malempati, M.D.	2005	Civil Rights Attorney, Portland, OR
Sanders Hsu, M.D.	2006	Sutter Health Clinic, Sacramento, CA
Bill Chang, M.D., Ph.D.	2006	Oregon Health & Science University, Portland, OR
Heather Bradeen, M.D.	2007	University of Vermont College of Medicine, Burlington, VT
Samuel Davis, M.D.	2007	Cook Children's Medical Center, Fort Worth, TX
Stefanie Lowas, M.D.	2008	Children's Hospital & Medical Center, Omaha, NE
Faith Galderisi, D.O.	2008	Woodburn Pediatric Clinic, Woodburn, OR
Chu Ri Shin, M.D., M.S.	2009	Janssen Pharmaceutica, Madison, WI
Peggy Chang, M.D.	2009	Indiana Health Center, South Bend, IN
Praveen Anur, M.D., M.P.H.	2010	Bristol Myers Squibb, NJ
Shirin Doratotaj, M.D.	2010	Randall Children's Hospital, Portland, OR
Jason Glover, M.D.	2011	Randall Children's Hospital, Portland, OR
Rebecca Loret de Mola, D.O., M.C.R.	2011	Helen DeVos Children's Hospital, Grand Rapids, MI
Todd Dalberg, D.O.	2012	Gillette Children's Hospital, St. Paul, MN
Thomas Russell, M.D.	2012	Wake Forest University Medical Center, Winston-Salem, NC
Lara Davis, M.D.	2013	Oregon Health & Science University, Portland, OR
Kristina Haley, D.O., M.C.R.	2013	Oregon Health & Science University, Portland, OR
Nameeta Richard, M.D.	2013	Randall Children's Hospital, Portland, OR
Blachy Davila-Saldana, M.D.	2014	Children's National Medical Center, Washington, DC
Melinda Wu, M.D.	2014	Oregon Health & Science University, Portland, OR
Lara Riegler, M.D.	2015	University of Virginia, Charlottesville, VA
Kelsie Storm, M.D.	2015	Randall Children's Hospital, Portland, OR
Shelton Viola, M.D.	2015	San Diego Naval Center, San Diego, CA
Jacob Henderson, M.D.	2016	Oregon Health & Science University, Portland, OR
David Kram, M.D., M.C.R.	2016	Wake Forest Medical Center, Winston-Salem, NC
Adam Lamble, M.D.	2017	Seattle Children's Hospital, Seattle, WA
Kate Garland, M.D.	2017	Children's Minnesota, Minneapolis, MN
Allie Maffit, M.D., M.S.	2018	Montana Children's Medical Center, Kalispell, MT
Katrina Winsnes, M.D., M.C.R.	2018	Oregon Health & Science University, Portland, OR
Nadav Lelkes Kastle, M.D.	2019	Barbara Bush Children's Hospital/Maine Medical Center, Portland, ME
Adam DuVall, M.D.	2020	University of Chicago, Chicago, IL
Matthew Dietz, D.O., M.S.Ed.	2020	University of Utah, Salt Lake City, UT
Kellee Parker, D.O.	2020	University of Utah, Salt Lake City, UT
Florence Choo, M.D.	2021	Rocky Mountian Hospital for Children, Denver, CO
Patrick DeMartino, M.D.	2021	Oregon Health & Science University, Portland, OR
Sasidhar Goteti, M.D.	2022	University of Utah, Salt Lake City, UT
Amanda Johnson, M.D.	2022	University of Minnesota, Minneapolis, MN
